The value of the "External Ticket No." field is automatically transferred between sales documents, for example, when posting an invoice or creating a sales order from a Sales Quote.

External Ticket No. (Sales) enhances your Dynamics 365 Business Central experience by integrating and managing external sales ticket numbers. This app ensures accurate tracking and synchronization of sales tickets from external systems, improving data consistency and operational efficiency. Ideal for businesses looking to streamline their sales processes and improve customer service with seamless external ticket management.
